

STATEMENT OF PURPOSE

RS21637

The Board proposes to combine the Out-of-State Mail Service Pharmacy Act into the Idaho Pharmacy Act and to move some provisions that more aptly belong in rule to IDAPA 27.01.01. Additionally, the Board proposes to expand the practice of pharmacy into Idaho through registration and regulation of additional out-of-state drug outlets and pharmacists in order to enhance the health and welfare of Idaho residents, especially our rural citizens.

FISCAL NOTE

The Board estimates an additional \$150,000 in annual income, however, the Board will assume additional registration, licensing, and investigational costs.
